January 4, 2010

Dear Recipient-

The New Jersey Association of Conservation Districts invites you to become a sponsor of the 1st ever NJACD Soil Health Conference. The concept of this conference evolved from the NJ Conservation Partnership's new appreciation the importance of maintaining soil health and the responsibility of the agencies entrusted with managing this important resource.

Reduced global warming, carbon sequestration, increased agricultural production and reduced flooding are some of the issues dependent on HEALTHY SOIL. We appreciate that this concept is still somewhat new and not well understood. The purpose of this conference is not only to educate but to begin a dialogue with the various stakeholders on this important topic. This is planned as the first of many such forums/conferences on this topic.

Your financial support will help ensure the success of this conference. As a Soil Health Conference Sponsor your organization will be listed in the Directory of Sponsors and will be acknowledged at the Conference. Your contribution is tax deductible as we are a non-profit, tax exempt organization.

Funding is offered at the following levels:

Gold-	\$1500 & Up	Includes 2 Complimentary Registrations
Silver-	\$750- \$1500	Includes 1 Complimentary Registration
Bronze -	\$250- \$750	No Complimentary Registration- Listing

Enclosed is a flyer that provides you with additional information about the Soil Health Conference. A Conference Sponsorship Form is also included. For additional information contact Louise Davis ldavis106@gmail.com or Ken Marsh marshck@comcast.net

Thank you for your interest in Soil Health. We look forward to seeing you at the conference.

Louise Davis - President NJACD
